

Careers Department

Careers education and Independent information, advice and guidance is important to every student and here at Tolworth Girls' School and Sixth Form we believe every student should have access to and receive support in planning their future.

How do we do this?

- Every year group from year 7-13 has a careers unit as part of their tutorial programme which focuses on key transitional points and how to explore yourself and your skills as you learn and grow.
- Daughters to work days in year 8 and 10
- Year 9 careers and enterprise whole school curriculum days.
- Work experience programme in year 12
- Invite in professionals to speak with students
- Spotlight on... displays focusing on different careers.
- Noticeboards around the school
- Careers section in the main school library
- Careers room and access to careers advisors
- Use of online programmes and resources.
- Curriculum subjects linking to careers.
- Robust strategies and policies and coordination of statutory guidelines

Further information and access to our policies, strategies and plans are available on the school website.
