

Hugs From Far Away

With social distancing there are so many loved ones, family and friends we have not been able to hug and be with

Write all of the people you have wanted to hug on these 'mini' huggable arms

Wrap it round yourself and save those important hugs for when we can finally be with those we love

Add **colour, patterns, decoration**, and most importantly... all of the **names** of those we can not wait to give a big hug again soon

Plan your ideas here...
